

## Electronic Integrated Circuit Worksheet

Do these Integrated Circuits have DRAM (Dynamic Random Access memory) die?

- No - Select the appropriate classification below
- Yes – Select the appropriate classification below. The importer must provide a Korean DRAM Certification if countervailing duty does not apply

Check the box below to determine the classification of the Integrated Circuit

- Processor (May be combined with other circuit) 8542.31.0400
  - Controller (May be combined with other circuits) 8542.31.0000
  
  - ❖ DRAM (Dynamic Access memory) or SDRAM. How many megabits? \_\_\_\_\_
    - 0-128 megabits 8542.32.0001
    - 129-256 megabits 8542.32.0020
    - 257-512 megabits 8542.32.0021
    - 513-1 gigabit 8542.32.0022
  
    - Over 1 gigabit 8542.32.0023
    - SRAM (Static read Only Memory) 8542.32.0040
  
    - EEPROM (Electronically Erasable Read only memory) 8542.32.0050
    - EPROM (Erasable Programmable Read Only Memory) 8542.32.0060
    - Other MEMORY (TYPE) \_\_\_\_\_ 8542.32.007
  
    - Amplifiers 8542.33.0000
  
    - Other Integrated Circuits (not listed above) 8542.39.0000
- What type? \_\_\_\_\_
- Parts of integrated Circuit 8542.90.0000

Information provided By:

Name \_\_\_\_\_ Title: \_\_\_\_\_

Signature: \_\_\_\_\_ Company: \_\_\_\_\_

Company Part Number \_\_\_\_\_ Purchase Order Number \_\_\_\_\_
